Topic:	Installation Training for Dealers and Installers 2010 Schedule
From:	Training Department Service & Solutions Group
Contact:	Stewart Chason 800.523.9504 x-301 stewart.chason@chamberlain.com

Chamberlain Access Solutions has an extensive schedule of installation training for 2010. Since class size for our hands-on course is limited and capacity for most sessions is reached several weeks in advance, act now to reserve the session of your choice.

The primary goal for Chamberlain Access Solutions training is to support you as the provider of choice for customers who want integrated solutions for access control, site security, and facility management. Our training is designed to develop the skills of your installers and technicians. Trained technicians resolve problems quickly and complete installations that require fewer call backs.

Installers and technicians will spend more than 50% of training time in a fully-equipped hands-on practice lab with the tools and equipment they will use when they return to the job.

What can you expect from us?

- Extensive hands-on training time building and troubleshooting an access system.
- Pre- and post-testing to demonstrate learning.
- Trainers with extensive product knowledge who use learner-centered approaches.
- Optimum class size to provide maximum benefit to your installers.

As a Chamberlain dealer you receive a 25% discount off the \$1,200 course cost. For your \$900 investment, we provide all of the equipment, tools, computers, software and materials that will be used during training and a complimentary lunch each day. To keep your travel costs to a minimum we have made arrangements for preferred rates with local hotels and transportation to the training academy.

Our course is conducted at the Chamberlain Training Academy in Tucson, Arizona. We are confident you will recognize the benefits mentioned above of attending training in Tucson.

2010 Training Dates

August 10-12

September 14-16

November 2-4
